

1.27.2026

Hello IVCC Member,

I just wanted to keep you updated on a few items:

-The 2026 Annual Meeting will be held at the IVCC Clubhouse on Saturday, June 27, 2026. We will be having a breakfast/brunch instead of the usual dinner.

-Please be careful when walking or driving around the Innsbrook. We have many tree limbs down with all the snow/ice we received over the weekend. As things thaw out, more limbs will fall. We are working with a local tree arborist to get as many dangerous limbs down as possible. Also, the roads are very icy. Again, please use caution!

-GOLF TOURNAMENTS! If you are interested in being on the Golf Tournament committee, please let me know. We have several golf tournaments Innsbrook would like to host this summer, but we need a committee to help coordinate these events.

-Special Assessment projects have started. Dan with COZ Engineering was at the Innsbrook last week conducting Geotechnical Engineering Services. Taking several soil samples from the pool area for testing. He will get me the final report in a few weeks.

As always, please let me know if you have any questions.

Thank you,

Melinda Bower
